We have some news for you. Everyone attending DeepSec 2017 will get a cinematic finish on the last day of the conference. We will be showing [The Maze](#) by [Friedrich Moser](#). For all who don't know Friedrich's works: He is the director of [A Good American](#) which was screened at DeepSec 2015. *The Maze* is a documentary covering terrorism, counter-terrorism, surveillance, business, and politics. So it's basically information security in a nutshell. Right after the closing of DeepSec you can enjoy The Maze – with popcorn and hopefully everyone who is attending DeepSec. We have seen the documentary before, and we highly recommend it! [The Maze](#) from [Friedrich Moser](#) on [Vimeo](#).
