

DeepSec 2017 Presentation Slides

Posted on **December 01,2017** by **lynx**

While the videos are on their way to the rendering farm, the [presentation slides for DeepSec 2017](#) can already be downloaded. We put them online as soon as we get the final version from our speakers. If you do some guessing URL-wise you can also find the presentations of past conferences at the very same spot. Since we collect the final slides after the conference and not ask speakers to put USB sticks into their computers during the conference, the download repository will fill in time. Unfortunately we cannot speed up this process. So bear with us, we are as curious as you (especially since some of us never get the see any presentation at DeepSec because there is too much to do).

As for the videos, all speakers and attendees will also get a direct link with early access to the content within the next few days. You don't have to reload our blog or Twitter feed. ;-)
