

Support for BSidesLondon's Rookie Track

Posted on **February 27,2018** by **lynx**

We are proud to support the Rookie Track at BSidesLondon in 2018 again. This means that one of us will be present at the Rookie Track and that the winner will get to attend DeepSec in November. It's hard to get a start, so we like to help the rookies with that. We also like to encourage everyone to share ideas, thoughts, code, and insights either at the Rookie Track or on the main stage. If you have never presented before, get a mentor and work on your presentation. Don't be afraid. We like to hear your thoughts on infosec and related topics.

The same is true for our U21 presentation slot. We encourage young researchers to submit a presentation to DeepSec. We also offer mentoring and help you to get your content on stage. You just have to submit. ?
