

Administrivia: How to access ROOTS and DeepSec 2017

Posted on **August 22,2017** by **lynx**

We have received some question on how to attend the presentations of the 1st Reversing and Offensive-oriented Trends Symposium (ROOTS) 2017. It's very easy. ROOTS is co-hosted with DeepSec 2017. This means if you attend DeepSec, you also attend ROOTS. In turn attending ROOTS gives you also access to the DeepSec conference. So you only need one ticket to access both events.

Bear in mind that our sponsors can give you discount codes for buying tickets. In addition we have a special programme for academics to give you the academic discount for the tickets. Don't forget: Buying early means saving money! The early bird tariff is still valid until 25 September 2017. After that the ticket price increases. Do us and yourself a favour and book as early as possible. Thank you!

See you at ROOTS / DeepSec 2017!
